

appropriation

Alan Dix
www.hcibook.com/alan

advantages of appropriation

- situatedness
 - design is intervention
 - but every environment, task, need different
- dynamics
 - environments and needs change
 - Design for use must be design for change
- ownership
 - feeling of control, doing things their own way
 - people proud of appropriations

guidelines for appropriation

- allow interpretation
- provide visibility
- expose intentions
- support not control
- plugability and configuration
